LABOR DAY SERMON.

Agreeable to the custom of our church, I will preach on Sunday preceding Labor Day a sermon in keeping with the time. The subject for the discourse at the Presbyterian church tomorrow will be "Industrial Relations."

Two years ago President Wilson appointed a "Commission on Industrial Relations," to which was committed the full investigation of the causes of industrial unrest, with the expectation that recommendations as to remedies might be made.

The commission held sittings in various industrial centers, occupying 154 days of actual time and examining 740 witnesses, quite equally divided as to sympathy between labor, employers and disinterested.

The results of this investigation are embodied in the report of the commission prepared by Basil M. Manley, di-

rector of research. An abstract of this report has been released to the press, together with supplemental reports by the various factions of the commission. The representatives of labor present a supplement as do also the representatives of the employers of labor, and the neutrals.

As Christian people, seeking a solution to the vexed problem of industrial relations the report is well worth our prayerful consideration. For this problem, as for all problems, we must seek a Christian solution. A careful consideration of this comprehensive report will help us to such conclusions. And while the spirit of the report is not considered above question, there is in it a drawing together of labor and employer that ought to be carefully nourished.—Edward B. Teis, Pastor.

In the afternoon, fancy work, conversation and music were enjoyed, the musical numbers, including "A Perfect Day," rendered by Mrs. Sharpe, and "Shadow Time," by Oklahoma McMaster. Mrs. Gordon and Miss Laveta Hawn played the accompaniments. No formal entertainment was provided, the ladies being left to get acquainted and talk over the coming year's work. Some choice Victrola selections were enjoyed by the guests. A brief business meeting was held at which time the club decided to put on a dramatic cantata, "Ruth, the Moabitess," in the first week in October. Mrs. Edward Teis read a selected article on the subject, "Should Sex Hygiene Be Taught in the Public Schools," and after discussing it the general opinion seemed to be that the subject could be taught successfully in the schools provided the instructor was an expert, and the girls and boys be taught separately. The next regular meeting of the club will be held the fourth Friday in September.

Voice of the City.

That talk of the town is a wonderful thing. It may fall away to a restless, fitful murmur in the middle of the night, but it goes on unceasingly. The honk of the motor car is its punctuation mark, and in its indistinguishable vast uproar blend the accents of nearly two million human beings, to say nothing of the wild laughter and tribulations of lesser animals, with an eye or a tongue to the moon that rules tides other than those of the sea, Atlantic Monthly.

For there be many voices, but one Voice.

Queen or Dairy Maid Ambition the Same

In the expectant mother's mind there is no limit to what the future has in store, and yet during the period of expectancy, much depends upon the physical comfort of the mother. One of the best aids is a remedy known as "Mother's Friend." Applied over the muscles, it penetrates to the network of nerves, relieves the pains incident to stretching of cords and ligaments, makes them pliant, induces daily comfort, restful nights, a calm mind and pleasant anticipation. You use it with your own hand, apply it as needed, and at once feel a sense of relief.

Mothers who have learned all this from experience tell of the blessed relief from morning sickness, the absence of strain and the undisturbed beautiful influence imparted to the coming baby.

One very important thing to remember about "Mother's Friend," it can not exercise any other influence than to simply lubricate the parts, make them more firm to naturally withstand the constantly increasing pressure. And as the muscles continue to expand, the nerves become accustomed to this new condition and adjust themselves without undue pain. "Mother's Friend" is entirely free of any drug influence whatsoever and may be used freely at all times.

Get a bottle of this splendid help today. Please your nearest druggist or send for it. Then write Bradford Leachman Co., 715 Lamar Bldg., Atlanta, Ga., for a valuable book of instruction for expectant mothers.

"Mother's Friend" is recommended everywhere by women who have used it. And you can read some very interesting letters if you write for this book.
